“ My sympathy to the Wolff children and their families. I have not seen Gerry in years, but have thought of her often. When I visited Aunt Theresa, I would always ask about her.

I'll remember her as a great lady.

God bless each of you.

“ My sympathy to Gerry's children. The last time I talked to Gerry was at the RB Dairy Queen as she was having lunch with her friends and we were traveling through which was a few years ago. Her mother-in-law was my Aunt. Betty Wagner

“ I met Gerry at the furnace factory she worked with my mom (Pat Blum) they shared lunch together & Gerry also came and visited my mom after the factory closed . Then years later I was blessed to be in her life again at her house she wanted to show me pictures of her family so she pulls a heavy container out of her closet and sits Indian style on the ground when we were done looking at pictures she Pops up like a teenager I loved hearing her stories of her family & telling me about my mom and them working together
